What you can get done on a single charge?

Arri Skypanel LED 420 W

~ 5 hours (full brightness)

Fog machine 1,500 W

~ 1.2 hours

Telescopic camera crane 1,800 W

~ 2-4 hours with peak of 1,800 W

Walkie Talkie

Recharge 220+ times

The Instagrid ONE is the perfect solution for powering off-grid production. Weighing only 20kg, and able to be carried in just one hand.

Say goodbye to the hassle of laying cables. Bring your power source directly to set and never again have to navigate a floor full of cables.

Let your story take centre-stage. Instagrid frees your film set from the background noise of traditional combustion generators.
