

## HYTERA VM550 BODY CAMERA

The Hytera VM550 Body Camera seamlessly integrates a high-quality body worn camera and can also be used as a remote speaker microphone (compatible radio required).

The compact, robust and ergonomic design of the VM550 makes it easy to use by operators of any experience level, with one touch operation for video capture and audio recording. The 2W speaker transmits high quality audio which is easy to hear, even in noisy environments and the HD camera captures high-resolution live images and records 720p video at 30 or 60fps and 1080p video at 30fps.
