

Description:

The range of 110 Volt splitters available are used for the distribution of electricity where you require to have multiple devices running from a single power source.

Available in various configurations the range includes 3 way, 4 way or 6 way splitters with either 16 Amp or 32 Amp sockets or a combination of. There is also options available with built in MCB (Miniature Circuit Breakers) which is an automatically operated electrical switch used to protect against excess current from an overload or short circuit.

Product Code: 4WSB2.532A

Specification:

- 110 Volt Input Voltage
- 32 Amp Input Plug
- 110 Volt Output Voltage
- 32 Amp Input Plug
- 4 x 16 Amp Sockets
- 2 x 16Amp Sockets
- 5 Meter Cable Length
- 2.5mm Cable Diameter
- 24cm H x 17.5cm W x 25.5cm L
- IP44 Rated
- Weight: 3kg
