

Description:

The new Elite Omega LED light available complete with telescopic stand has been designed with the construction and utility industries in mind following on from customer feedback.

Never lose a charger again, the 240 volt charger is hardwired into the lighting unit itself and is stored in its own compartment in the rear of the light itself. The base of the light has a powerful magnet in each of the feet of the stand allowing you to place the light on metallic surfaces making it very versatile.

The Elite Range of LED lighting is a commercial range of indoor and outdoor site lighting and offers a number of advantages over conventional lighting systems including energy efficiency, LED lighting is 95% efficient compared with 5% for halogen bulbs and 85% for fluorescent tubes. LED bulbs have a longer life span, use less wattage and produce more Lumens.

Product Code: OMG25S

Specification:

- 4000lm output, half power 2000lm and 1000lm low power
- Li Ion 8.8A/h battery, 4 hours at a constant 100%, 8 hours at 50% and 14hrs+ at 25%.
- Compact and robust design
- CRI >80 and colour temperature of 6400K
- Fully CE compliant and manufactured to meet IP54 and IK08.
- Intergrated charger
- Included Tripod
- Tripod Maximum Height: 175cm
- Tripod Minimum Height: 93cm
